## RISK/RETURN SUMMARY

---

### Investment Objective

The investment objective of the Monteagle Informed Investor Growth Fund (the “Fund”) is long term growth of capital. The Fund will provide shareholders with at least 60 days notice before changing this objective.

### Principal Investment Strategy

The Fund seeks to achieve its objective by investing in “growth stocks.” These are stocks that the Fund’s Sub-adviser believes demonstrate accelerating cash flows, profit margins and/or revenues. The Sub-adviser emphasizes companies where management and/or large outside investors (such as banks, insurance companies and mutual funds) are buyers or owners of the stock or where the company itself is repurchasing its own shares on the open market. Each of these types of investment professionals is considered an “Informed Investor.”

Corporate management is far closer to the day-to-day activities of the companies they own or manage and are often in a much more informed position than the typical Wall Street “expert” to gauge the long-term effects that certain publicly disclosed information or developments may have on the future price of their company’s stock. The Informed Investor follows a long-term strategy that concentrates primarily on positive earnings developments within their own companies, rather than feeding off short-term momentum.

The catalyst of the strategy is Informed Investor ownership; but, investment decision-making for the Fund is triggered by detailed research analysis of such factors as a candidate company’s financial stability and strength, internal valuation and pricing ratios, sector leadership and, most significantly, the sustainability of the earnings growth rate. Similar factors determine when a security is sold. For example, a stock may be sold if there are changes in trading activity by Informed Investors or changes in the company’s fundamentals, such as decelerating earnings or material changes in the debt-equity ratio of the company.

The Fund invests primarily in common stocks of medium and large capitalization U.S. companies, but may invest in companies of any size. Although the Fund will not concentrate in any one industry, it is anticipated that the Fund’s portfolio will focus on a small, select group of industries (“growth industries”) which the Fund’s Sub-adviser believes offer superior growth opportunities based on overall economic trends.

### CONCEPTS TO UNDERSTAND

#### ***Growth Investing***

means to invest in stocks of companies that have exhibited faster than average earnings growth over the past few years and are expected to continue to show high levels of profit growth.

#### ***Common Stock***

is ownership shares in a corporation that are sold initially by the corporation and then traded by investors.

#### ***Market Capitalization***

of a company means the value of the company’s common stock in the stock market.

From time to time, the Fund's Sub-adviser may determine that only a limited number of companies meet the criteria for investment described above. At such times, all or a significant portion of the Fund's assets may be invested in broad market index exchange traded funds ("ETFs"), money market instruments (including money market mutual funds) or repurchase agreements for an extended period of time.

## Principal Risks of Investing in the Fund

You could lose money on your investment in the Fund and the Fund could underperform other investments. The principal risks of investing in the Fund include:

- **Management Risk.** The strategy used by the Fund may fail to produce the intended results.
- **Company Risk.** The Fund might decrease in value in response to the activities and financial prospects of an individual company in the Fund's portfolio. The value of an individual company can be more volatile than the market as a whole.
- **Market Risk.** The Fund might decrease in value in response to general market and economic conditions. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets.
- **Volatility Risk.** Common stocks tend to be more volatile than other investment choices. Because the Fund will emphasize various growth industries, the value of your shares is likely to be more volatile than a fund that invests in a broader range of industries.
- **Capitalization Risk.** The Fund may invest in small and medium capitalization companies which involve greater risks than those associated with larger, more established companies. Smaller companies may be subject to more abrupt or erratic price movements, for reasons including that the stocks are generally traded in lower volume and that the issuers are more sensitive to changing conditions and have less certain growth prospects.
- **Portfolio Turnover Risk.** The Fund's investment strategy may result in a high portfolio turnover rate. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the distribution to shareholders of additional capital gains for tax purposes. These factors may negatively affect the Fund's performance.
- As with any mutual fund investment, the Fund's returns will vary and you could lose money.

An investment in the Fund is not a deposit of any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund is not a complete investment program.

## Who May Want to Invest in the Fund

You may want to purchase shares of the Fund if:

- You are a long term investor seeking a fund with a growth investment strategy
- You are an investor willing to accept significant fluctuations in the value of your investment
- You are an investor who can tolerate the greater risks associated with common stock investments

The Fund may not be appropriate for you if:

- You need regular income or stability of principal
- You are pursuing a short-term goal or investing emergency reserves

The Fund is not intended to be a “Sector Fund” (a fund concentrating its investments in one industry or related group of industries). To address this risk, the Fund’s policy is: (1) limit its investments in any industry or group of related industries to twenty-five percent (25%) of fund assets; and (2) if the 25% threshold is exceeded due to market appreciation, the portfolio manager shall commence an orderly reduction in holdings to bring the aggregate investment in any industry or group of related industries to below 25%. The Fund will provide Shareholders with at least sixty (60) days notice of any change to this limitation.

**Temporary Defensive Position.** The Fund may from time to time take temporary defensive positions that are inconsistent with the Fund’s principal investment strategies in attempting to respond to adverse market, economic, political, or other conditions. For example, the Fund may hold all or a portion of its assets in broad market index ETFs, money market instruments, securities of no-load mutual funds or repurchase agreements. The Sub-adviser has used ETF’s; however, the Sub-adviser views ETF’s as risky investments because they are more volatile – particularly those that are leveraged or inversely related to the market. To address this risk, the Sub-adviser has strict sell procedures in place. If the Fund invests in shares of another mutual fund, the shareholders of the Fund generally will be subject to duplicative management fees. As a result of engaging in these temporary measures, the Fund may not achieve its investment objective.

## PERFORMANCE

---

Performance information has not been presented because the Fund has not been in existence for a full calendar year. Year to date return as of September 30, 2009 was 44.76%. Since inception return from April 3, 2008 to February 28, 2009 was -14.80%.

## FEE TABLE

The following tables describe the fees and expenses that you will pay if you buy and hold shares of the Fund.

<b>Shareholder Fees</b> (fees paid directly from your investment)	
Sales Charge (Load) Imposed on Purchases	None
Deferred Sales Charge (Load)	None
Sales Charge (Load) Imposed on Reinvested Distributions	None
Redemption Fee	None
Exchange Fee	None
<b>Annual Fund Operating Expenses</b> (expenses that are deducted from Fund assets)	
Management Fees <sup>1</sup>	1.19%
Distribution [and/or Service] (12b-1) Fees	0.00%
Other Expenses <sup>2</sup>	0.08%
Acquired (Underlying) Fund Fees and Expenses <sup>3</sup>	<u>0.58%</u>
<b>Total Annual Fund Operating Expenses</b>	<b>1.85%</b>
Fee Waivers and Expense Reimbursements	0.00%
Net Expenses (after expense reimbursements)	1.85%

- <sup>1</sup> The Fund's investment adviser is responsible for paying all of the Fund's expenses except costs of membership in trade associations, Securities and Exchange Commission registration fees and related expenses, brokerage fees and commissions, taxes, borrowing costs, litigation expenses, fees and expenses of non-interested Trustees, 50% of the compensation of the Trust's Chief Compliance Officer attributable to the Fund and extraordinary expenses.
- <sup>2</sup> Other Expenses are based on amounts for the current fiscal year ended August 31, 2009.
- <sup>3</sup> Acquired Fund Fees and Expenses are the fees and expenses incurred indirectly by the Fund as a result of its investments in investment companies and other pooled investment vehicles.

### Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. It assumes that you invest \$10,000 in the Fund for the time periods indicated, reinvest all dividends and distributions, and then redeem all of your shares at the end of those periods. This Example also assumes that your investment has a 5 percent return each year and that the Fund's operating expenses remain the same as stated in the table above. Although your actual costs may be higher or lower, under these assumptions your costs would be:

1 YEAR	3 YEARS	5 YEARS	10 YEARS
\$188	\$582	\$1,001	\$2,169

## MANAGEMENT

---

### Adviser

Nashville Capital Corporation (“Nashville Capital” or the “Adviser”), 209 10th Avenue South, Suite 332, Nashville, Tennessee 37203, serves as investment adviser to the Fund pursuant to a Management Agreement with Montegale Funds (the “Trust”). Subject to the general oversight of the Board of Trustees of the Trust (the “Board”), the Adviser is responsible for among other things, developing a continuing investment program for the Fund in accordance with its investment objective, reviewing the investment strategies and policies of the Fund and advising the Board on the selection of Sub-advisers.

In this capacity, Nashville Capital advises and assists the officers of the Trust in conducting the business of the Fund and is responsible for providing general investment advice and guidance to the Fund, although the Adviser has delegated responsibility for the selection and ongoing monitoring of the securities in the Fund’s investment portfolio to T.H. Fitzgerald & Co. Nashville Capital was formed in 1986 and, as of September 30, 2009, managed assets of over \$114 million. Pursuant to the Management Agreement, the Adviser is paid a management fee based on the Fund’s average daily net assets according to the following schedule:

Average Daily Net Assets of the Fund	Management Fee Rate
First \$25 million	1.200%
\$25 million to \$50 million	1.115%
\$50 million to \$100 million	0.975%
Over \$100 million	0.875%

The Adviser pays all of the operating expenses of the Fund except costs of membership in trade associations, Securities and Exchange Commission registration fees and related expenses, brokerage fees and commissions, taxes, borrowing costs (such as (a) interest and (b) dividend expense on securities sold short), litigation expenses, fees and expenses of non-interested Trustees, 50% of the compensation of the Trust’s Chief Compliance Officer (the “CCO”) attributable to the Fund and extraordinary expenses.

A discussion regarding the basis for approval by the Board of the Trust’s Management Agreement with the Adviser is available in the Trust’s semi-annual report for the period ended February 28, 2009.

## **Sub-Adviser / Portfolio Manager**

The Adviser has the ultimate responsibility (subject to oversight by the Board) to oversee the Fund's Sub-adviser and recommend its hiring, termination and replacement. The Adviser has entered into an investment sub-advisory agreement with T.H. Fitzgerald & Company ("T.H. Fitzgerald"), under which T.H. Fitzgerald serves as the Fund's Sub-adviser. The Adviser has retained T.H. Fitzgerald to render advisory services and make daily investment decisions for the Fund. T.H. Fitzgerald is registered as an investment adviser under the Investment Advisers Act of 1940. Information regarding T.H. Fitzgerald and the portfolio manager's business experience and educational background follow:

**T.H. Fitzgerald & Company ("T.H. Fitzgerald")**, located at 180 Church Street, Naugatuck, Connecticut 06770, manages the portfolio of the Fund and has since its inception. As of September 30, 2009, T.H. Fitzgerald manages approximately \$151 million for large institutional accounts. T.H. Fitzgerald accepts no individual or private accounts, regardless of size. The firm has been owner-managed since its founding in 1959. The Fund offers the individual investor access to the firm's proprietary "Informed Investor" strategy.

A discussion regarding the basis for approval by the Board of the Fund's Sub-Advisory Agreement by and among the Trust, the Adviser and T.H. Fitzgerald is available in the Trust's semi-annual report for the period ended February 28, 2009.

**Portfolio Manager.** Investment decisions for the Fund are made by Thomas H. Fitzgerald, Jr. Mr. Fitzgerald is responsible for the day-to-day management of the Fund and has been since the Fund's inception (April 2008).

**Thomas H. Fitzgerald, Jr.** is President and, beginning in 1982, the Chief Portfolio Investment Officer of the firm that bears his father's name. The firm was founded in New York in 1959. Mr. Fitzgerald was a founding principal and the first editor of The Money Market Directory, the world's foremost reference authority on U.S. institutional investors and their portfolio managers. He is a member of the American Finance Association, the President's Council of the American Institute of Management, and the Market Technicians Association.

Mr. Fitzgerald entered the investment business as special assistant to the late Gerald M. Loeb, then a partner of E.F. Hutton & Company, New York, and author of the all-time classic, "The Battle For Investment Survival". He later worked as consultant to David Dreman, world-renown investment manager and author of the best-sellers, "Contrarian Investment Strategy" and "Psychology and The Stock Market". Mr. Fitzgerald received a Bachelor of Science degree from the University of Connecticut, and has completed studies in International Banking and Foreign Exchange at New York University Graduate School of Business Administration. He served two years in the United States Army as a paratroop-lieutenant.

The Fund's Statement of Additional Information contains further details about the portfolio manager's compensation, other accounts managed by the portfolio manager, and the portfolio manager's ownership of Fund shares.

## **SEC Exemptive Order**

The Trust and the Adviser have applied for an exemptive order from the SEC that permits the Adviser, subject to certain conditions, to enter into agreements relating to the Fund with unaffiliated Sub-advisers approved by the Board, without obtaining shareholder approval. The exemptive order would also permit the Adviser, subject to the approval of the Board but without shareholder approval, to employ new unaffiliated Sub-advisers for new or existing funds, change the terms of particular agreements with unaffiliated Sub-advisers or continue the employment of existing unaffiliated Sub-advisers after events that would otherwise cause an automatic termination of a sub-advisory agreement. Shareholders of the Fund have the right to terminate an agreement with a Sub-adviser for the Fund at any time by a vote of the majority of the outstanding voting securities of the Fund. Shareholders will be notified of any Sub-adviser changes. If the Adviser hires more than one Sub-adviser for the Fund, the order would also permit the Fund to disclose to shareholders the Sub-advisers' fees only in the aggregate for the Fund.

Prior to October 2002, the Trust operated under an exemptive order covering Sub-adviser matters. Following a change in investment advisers on October 1, 2002, the Trust could no longer utilize the exemptive order specific to the previous investment adviser. On November 29, 2002, shareholders instructed management to submit an application for an exemptive order on the same terms and conditions as the prior order. On October 23, 2003, the SEC proposed Rule 15a-5 under the Investment Company Act of 1940 that would allow funds to operate under conditions like those in the application for an exemptive order. The SEC staff was advised that the Trust and the Adviser wish to proceed with the application and that they have added a condition to the application providing that any exemptive order will terminate if and when Rule 15a-5 is adopted. In January 2005, the SEC staff provided comments on the application for exemption; and, in light of timing, the Trust deferred responding to the comments in anticipation of the rule being adopted. As of the date of this Prospectus, Rule 15a-5 is still being considered for adoption; however, there is no assurance that the rule will be adopted or exemptive relief will be granted.

## **Other Service Providers**

Matrix Capital Group, Inc. (the "Transfer Agent"), provides certain administration, portfolio accounting, and transfer agency and shareholder services to the Fund. The Transfer Agent's address is 630 Fitzwatertown Road, Building A, Second Floor, Willow Grove, Pennsylvania 19090.

Matrix Capital Group, Inc. (the "Distributor"), the principal underwriter of the Fund, acts as the Fund's representative in connection with the offering of Fund shares. The Fund may be offered by other broker-dealers as well. The Distributor is affiliated with the Transfer Agent but is not affiliated with the Adviser nor its affiliated companies.

The fees and other charges (except for any extraordinary expenses) associated with the Fund's service providers are paid by the Adviser.

## **Fund Expenses**

The Adviser pays all of the operating expenses of the Fund except costs of membership in trade associations, SEC registration fees and related expenses, brokerage fees and commissions, taxes, borrowing costs (such as (a) interest and (b) dividend expense on securities sold short), litigation expenses, fees and expenses of non-interested Trustees, 50% of the compensation of the Trust's CCO attributable to the Fund and extraordinary expenses. In this regard, it should be noted that most investment companies pay their own operating expenses directly, while the Fund's expenses, except those specified above, are paid by the Adviser. The Fund's expenses are comprised of expenses directly attributable to the Fund as well as expenses that are allocated among all series of the Trust. In addition, the Adviser is responsible for distribution expenses – including, among other things, the expense of printing and mailing prospectuses and sales materials used for promotional purposes. The Adviser or the Sub-adviser (not the Fund) may, from its management fee, pay certain financial institutions (which may include banks, brokers, securities dealers and other industry professionals) a fee for providing distribution-related services and/or performing certain administrative servicing functions for Fund shareholders to the extent these institutions are allowed to do so by applicable statute or regulation.

## YOUR ACCOUNT

---

### General Information

You pay no sales charges to purchase or sell (redeem) shares of the Fund. You may purchase and sell shares at the net asset value (“NAV”) next calculated after receipt of your purchase order in proper form. If your purchase order is received in proper form prior to 4:00 p.m. (Eastern time), your transaction will be priced at that day’s NAV. The Fund will not accept orders that request a particular day or price for the transaction or any other special conditions.

The Fund does not issue share certificates.

You will receive quarterly statements and a confirmation of each transaction. You should verify the accuracy of all transactions in your account as soon as you receive your confirmation.

The Fund reserves the right to impose new minimum investment amounts and may temporarily suspend (during unusual market conditions) or discontinue any service or privilege.

**When And How NAV Is Determined.** The Fund calculates its NAV as of the close of regular trading on the New York Stock Exchange (the “Exchange”) (generally 4:00 p.m., Eastern time) on each weekday except days when the Exchange is closed. The time at which NAV is calculated may change in case of an emergency or if the Exchange closes early. The Fund’s NAV is determined by taking the market value of all securities owned by the Fund (plus all other assets such as cash), subtracting all liabilities and then dividing the result (net assets) by the number of shares outstanding. The Fund values securities for which market quotations are readily available at current market value. If market quotations are not readily available or are considered to be unreliable due to significant market or other events, the Fund values securities at fair value, as determined under procedures adopted by the Board (e.g., if the exchange on which a portfolio security is principally traded closes early or if trading in a particular portfolio security was halted during the day and did not resume prior to the Fund’s NAV calculation). The NAV may be different if fair value is utilized rather than using market quotations.

Please call the Transfer Agent  
at (888) 263-5593 for wiring  
instructions.

**Transactions Through Third Parties.** Shares of the Fund may be purchased through certain brokerage firms and financial institutions that are authorized to accept orders on behalf of the Fund and such organizations may be authorized to designate intermediaries to accept orders on behalf of the Fund. Orders will be priced at the NAV next determined after your order is received by such organization, or its designee, in proper form. These organizations may charge you transaction fees on purchases of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who purchase shares directly from the Fund. These organizations may be the shareholders of record of your shares. The Fund is not responsible for ensuring that the organizations carry out their obligations to their customers. Shareholders investing in this manner should look to the organization through which they invest for specific instructions on how to purchase and redeem shares.

## Buying Shares

**How To Make Payments.** All investments must be in U.S. dollars and checks must be drawn on a U.S. financial institution. The Fund does not accept cash, drafts, “starter” checks, travelers checks, credit card checks, post-dated checks, cashier’s checks under \$10,000, or money orders. In addition, the Fund does not accept checks made payable to third parties.

- **Checks.** Checks must be made payable to “Monteagle Funds.” The Transfer Agent will charge \$25 against a shareholder’s account for any check returned for insufficient funds.

By sending your check to the Transfer Agent, please be aware that you are authorizing the Transfer Agent to make a one-time electronic debit from your account at the financial institution indicated on your check. Your bank account will be debited as early as the same day the Transfer Agent receives your payment in the amount of your check; no additional amount will be added to the total. The transaction will appear on your bank statement. Your original check will be destroyed once processed, and you will not receive your canceled check back. If the Transfer Agent cannot post the transaction electronically, you authorize the Transfer Agent to present an image copy of your check for payment.

- **Bank Wires.** Instruct your financial institution to make a federal funds wire payment to us. Your financial institution may charge you a fee for this service. The Fund requires advance notification of all wire purchases in order to ensure that the wire is received in proper form and that your account is subsequently credited in a timely fashion. Failure to notify the Transfer Agent prior to the transmittal of the bank wire may result in a delay in purchasing shares of the Fund. An order is considered received when U.S. Bank, N.A., the Fund’s custodian, receives payment by wire. If your account application was telecopied to the Transfer Agent, you must also mail the completed account application to the Transfer Agent on the same day the wire payment is made. Shares will be issued at the NAV next computed after receipt of your wire in proper form.

- **IRA Accounts.** Please note that a different procedure is used for opening Individual Retirement Accounts (IRAs). Please call the Transfer Agent at (888) 263-5593 for details.

**Minimum Investments.** The minimum initial investment for the Fund is \$100,000. There is no minimum for additional investments. Management of the Fund may choose to waive the initial investment minimum.

**Systematic Investments.** You may invest a specified amount of money in the Fund once or twice a month on specified dates. These payments are taken from your bank account by electronic transfer. The Transfer Agent currently pays the costs of this service, but reserves the right, upon 30 days' written notice, to make reasonable changes. Your depository institution may impose its own charge for making transfers from your account. Systematic investments must be for at least \$100. Please call the Transfer Agent at (888) 263-5593 for details.

**Limitations On Purchases.** The Fund reserves the right to refuse any purchase (including exchange) request, particularly requests that could adversely affect the Fund or its operations. This includes those from any individual or group who, in the Fund's view, is likely to engage in excessive trading.

**Cancelled Or Failed Payments.** The Fund accepts checks and electronic bank transfers at full value subject to collection. If your payment for shares is not received or you pay with a check or electronic bank transfer that does not clear, your purchase will be cancelled. You will be responsible for any losses or expenses incurred by the Fund or the Transfer Agent, and the Fund may redeem shares you own in the account (or another identically registered account in any Fund) as reimbursement. The Fund and its agents have the right to reject or cancel any purchase, exchange or redemption due to nonpayment.

**Customer Identification And Verification.** To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person that opens a new account, and to determine whether such person's name appears on government lists of known or suspected terrorists and terrorist organizations. As a result, the Fund must obtain the following information for each person that opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing); and
- Social security number, taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport, or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross-referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities. *Federal law prohibits the Fund and other financial institutions from opening a new account unless they receive the minimum identifying information listed above.*

After an account is opened, the Fund may restrict your ability to purchase additional shares until your identity is verified. The Fund also may close your account or take other appropriate action if it is unable to verify your identity within a reasonable time. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed. In each case, your redemption proceeds may be worth more or less than your original investment. The Fund will not be responsible for any loss incurred due to the Fund's inability to verify your identity.

## **Selling Shares**

The Fund processes redemption orders promptly and you will generally receive redemption proceeds within a week. Delays may occur in cases of very large redemptions, excessive trading or during unusual market conditions. Under

unusual circumstances as provided by the rules of the SEC, the Fund may delay payment of redemption proceeds for more than 7 days. The Fund will redeem your shares when the redemption request is received in proper form; however, if you recently purchased your shares by check and the Fund has not yet collected payment for those shares, your redemption proceeds will only be released when the Fund is reasonably satisfied that the check has cleared, which may take up to 15 calendar days.

## **How to Sell Shares from Your Account**

### ***By Mail***

- Prepare a written request including:
  - Your name(s) and signature(s)
  - Your account number
  - The Fund name
  - The dollar amount or number of shares you want to sell
  - How and where to send your proceeds
- Obtain a signature guarantee (if required)
- Obtain other documentation (if required)
- Mail us your request and documentation

### ***By Bank Wire***

- Wire requests are only available if you provided bank account information on your account application and your request is for \$5,000 or more
- Call us with your request (unless you declined telephone redemption privileges on your account application) (See “By Telephone”) OR
- Mail us your request (See “By Mail”)

### ***By Telephone (for redemptions of \$25,000 or less)***

- Call us with your request (unless you declined telephone redemption privileges on your account application)

## How to Sell Shares from Your Account

### *Systematically*

- Complete the systematic withdrawal section of the application
- Attach a voided check to your application
- Mail us your completed application

**Telephone Redemption Privileges.** You may redeem your shares having a value of \$25,000 or less by telephone by calling the Transfer Agent at (888) 263-5593 unless you declined telephone redemption privileges on your account application. Telephone redemptions may be requested only if the proceeds are to be sent to the shareholder of record and mailed to the address on record with the Fund.

Upon request, redemption proceeds of \$100 or more may be sent to your bank by electronic transfer, and proceeds of \$5,000 or more may be transferred by wire, in either case to the account stated on the account application. Shareholders may be charged a fee of \$15 by the Fund's custodian for outgoing wires.

Telephone redemption privileges and account designations may be changed by sending the Transfer Agent a written request with all signatures guaranteed as described above. The Transfer Agent requires personal identification before accepting any redemption request by telephone, and telephone redemption instructions may be recorded. If reasonable procedures are followed by the Transfer Agent, neither the Transfer Agent nor the Fund will be liable for losses due to unauthorized or fraudulent telephone instructions. In the event of drastic economic or market changes, a shareholder may experience difficulty in redeeming shares by telephone. If such a case should occur, redemption by mail should be considered.

**Wire Redemptions.** You may have your redemption proceeds wired to you if you provided bank account information on your account application. The minimum amount you may redeem by wire is \$5,000. If you wish to make your wire request by telephone, you must also have telephone redemption privileges.

**IRA Redemptions.** If you are an IRA shareholder, you must indicate on your redemption request whether or not to withhold federal income tax. Requests that do not indicate a preference will be subject to withholding.

**Systematic Withdrawal.** If you own shares of the Fund with an aggregate value of at least \$10,000, you may request a specified amount of money from your account once a month or once a quarter on a specified date. These payments can be sent to your address of record by check or to a designated bank account by ACH payment. Systematic requests must be for at least \$100.

**Signature Guarantee Requirements.** To protect you and the Fund against fraud, certain redemption options will require a signature guarantee. A signature guarantee verifies the authenticity of your signature. The Transfer Agent will accept

signatures guaranteed by a domestic bank or trust company, broker, dealer, clearing agency, savings association or other financial institution which participates in the STAMP Medallion program sponsored by the Securities Transfer Association. Signature guarantees from financial institutions which do not participate in the STAMP Medallion program will not be accepted. A notary public cannot provide a signature guarantee. Written instructions signed by all registered owners, with a signature guarantee for each owner, are required for any of the following:

- Request to redeem \$100,000 or more
- Redemption from an account for which the address or account registration has changed within the last 30 days
- Sending redemption and distribution proceeds to any person, address, brokerage firm or bank account not on record
- Sending redemption and distribution proceeds to an account with a different registration (name or ownership) from yours

We reserve the right to require a signature guarantee(s) on all redemptions.

**Small Accounts.** If the value of your account falls below \$2,000, the Fund may ask you to increase your balance. If the account value is still below \$2,000 after 60 days, the Fund may close your account and send you the proceeds. The Fund will not close your account if it falls below this amount solely as a result of a reduction in your account's market value.

**Redemptions In Kind.** The Fund reserves the right to pay redemption proceeds in portfolio securities rather than cash. These redemptions "in kind" usually occur if the amount requested is large enough to affect the Fund's operations (for example, if it represents more than 1 percent of the Fund's assets). A redemption in kind will consist of securities equal in market value to the Fund shares being redeemed. When you convert these securities to cash, you will pay brokerage charges.

**Lost Accounts.** The Transfer Agent will consider your account "lost" if correspondence to your address of record is returned as undeliverable, unless the Transfer Agent determines your new address. When an account is "lost," all distributions on the account will be reinvested in additional shares of the Fund. In addition, the amount of any outstanding (unpaid for 6 months or more) checks for distributions that have been returned to the Transfer Agent will be reinvested and the checks will be cancelled.

## Exchange Privileges

You may sell your Fund shares and buy shares of any other series of the Trust, also known as an exchange, by telephone or in writing. Because exchanges are treated as a sale and purchase, they may have tax consequences. Shares of the Fund acquired by means of an exchange will be purchased at the NAV next determined after receipt of the exchange request in proper form by the Transfer Agent.

**Requirements.** You may exchange only between identically registered accounts (name(s), address and taxpayer ID number). To prevent the abuse of the exchange privilege to the disadvantage of other shareholders, the Fund reserves the right to

terminate or modify the exchange privilege upon 60 days notice to shareholders. There is currently no limit on the number of exchanges, but each Fund reserves the right to limit exchanges. You may exchange your shares by mail or telephone, unless you declined telephone exchange privileges on your account application.

## **How to Exchange Shares**

### ***By Mail***

- Prepare a written request including:
  - Your name(s) and signature(s)
  - Your account number
  - The names of the funds you are exchanging
  - The dollar amount or number of shares you want to sell (and exchange)
- If opening a new account, complete an account application if you are requesting different shareholder privileges
- Mail us your request and documentation

### ***By Telephone***

- Call us with your request (unless you declined telephone redemption privileges on your account application)
- Provide the following information:
  - Your account number
  - Exact name(s) in which account is registered
  - Additional form of identification

The Transfer Agent requires personal identification before accepting any exchange request by telephone, and telephone exchange instructions may be recorded. If reasonable procedures are followed by the Transfer Agent, neither the Transfer Agent nor the Fund will be liable for losses due to unauthorized or fraudulent telephone instructions. In the event of drastic economic or market changes, a shareholder may experience difficulty in exchanging shares by telephone. If such a case should occur, sending exchange instructions by mail should be considered.

## **Market Timing**

Excessive, short-term market timing or other abusive trading practices may disrupt portfolio management strategies, may drive Fund expenses higher, may increase taxable capital gains, and may harm Fund performance (diluting the value of Fund shares held by long-term investors).

It is the Trust's policy to strongly discourage abusive short-term trading or market timing in the Fund. This policy and related procedures are designed to reduce, to the extent possible, investors from using the Fund for abusive short-term trading or market timing. To minimize harm to the Fund and its shareholders, the Trust

reserves the right to reject any purchase order, including exchange purchases, for any reason, without prior notice, particularly orders that the Trust believes are made on behalf of persons engaging in excessive short-term trading.

Service providers to the Trust (primarily the Adviser and the Transfer Agent) will assist the Trust in undertaking steps necessary to implement this policy and related procedures. Trust service providers will assist the Trust in monitoring selected trades based on a shareholder's trading activity and history in an effort to detect short-term trading activities. If as a result of this monitoring the service providers believe a shareholder has engaged in abusive trading practices, they will inform the Trust's CCO and may, after consultation with or at the discretion of the Trust's CCO, ask the shareholder to stop such activities or refuse to process purchases or exchanges in the shareholder's account.

The Fund relies on intermediaries to help enforce its market timing policies. If the Fund detects short-term trading activity, the Fund will seek the assistance of the intermediary to investigate that trading activity and take appropriate action, including prohibiting additional purchases of Fund shares by the intermediary and/or its client. Although the Fund has taken steps to discourage abusive short-term trading or market timing, the Fund cannot guarantee that such trading will not occur.

## **DISTRIBUTIONS AND TAXES**

---

### **Distributions**

The Fund declares and pays distributions from net investment income quarterly. Any net capital gains realized by the Fund will be distributed at least annually.

All distributions are reinvested in additional shares, unless you elect to receive distributions in cash. For Federal income tax purposes, distributions are treated the same whether they are received in cash or reinvested. Shares become entitled to receive distributions on the day after the shares are issued.

### **Taxes**

The following information is meant as a general summary for U.S. taxpayers. Additional information appears in the SAI. Shareholders should rely on their own tax advisors for advice about the particular federal, state, and local tax consequences of investing in the Fund.

The Fund intends to qualify as a regulated investment company for federal income tax purposes, and as such, will not be subject to federal income tax on its taxable income and gains that it distributes to its shareholders. The Fund intends to distribute its income and gains in such a way that it will not be subject to federal excise tax on certain undistributed amounts.

The Fund's distributions of net investment income (including short-term capital gains) are generally taxable to you as ordinary income, although certain income

dividends may be taxed to non-corporate shareholders at long-term capital gains rates. The Fund's distributions of long-term capital gains, if any, generally are taxable to you as long-term capital gains regardless of how long you have held your shares of the Fund. Distributions may also be subject to state and local taxes.

If you purchase shares shortly before the Fund makes a distribution, you are taxed on the distribution even though the distribution may represent a return of your investment. The sale or exchange of Fund shares is a taxable transaction for Federal income tax purposes.

The Fund may be required to withhold Federal income tax at the rate of 28% of all taxable distributions payable to you if you fail to provide the Fund with your correct taxpayer identification number or to make required certifications, or if you have been notified by the Internal Revenue Service that you are subject to backup withholding. Backup withholding is not an additional tax. Any amounts withheld may be credited against your Federal income tax liability.

The Fund will mail you reports by February 15 of each year containing information about the income tax status of distributions paid during the prior year. For further information about the tax effects of investing in the Fund, including state and local tax matters, please see the SAI and consult your tax advisor.

## FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total return in the table represents the rate an investor would have lost on an investment in the Fund (assuming the reinvestment of all dividends and distributions). This information has been audited by Cohen Fund Audit Services, Ltd., whose report, along with the Fund's financial statements, is included in the annual report to shareholders, which may be obtained at no charge by calling the Fund.

*For a Share Outstanding Throughout the Period*

	<b>Year Ended August 31, 2009</b>	<b>Period Ended August 31, 2008<sup>(a)</sup></b>
<b>Net asset value, beginning of period</b>	\$ 8.82	\$ 10.00
<b>Income from investment operations:</b>		
Net investment loss <sup>(f)</sup>	(0.05)	(0.02)
Net realized and unrealized gain (loss) on investments	4.12	(1.16)
<b>Total from investment operations</b>	<u>4.07</u>	<u>(1.18)</u>
<b>Net asset value, end of period</b>	<u>\$ 12.89</u>	<u>\$ 8.82</u>
<b>Total Return<sup>(b)</sup></b>	<u>46.15%</u>	<u>(11.80%)<sup>(c)</sup></u>
<b>Net assets, end of period (000's omitted)</b>	<u>\$ 27,680</u>	<u>\$ 9,177</u>
<b>Ratio of operating expenses to average net assets:<sup>(e)</sup></b>	1.27%	1.27% <sup>(d)</sup>
<b>Ratio of net investment loss to average net assets:<sup>(f)</sup></b>	(0.77%)	(0.60%) <sup>(d)</sup>
<b>Portfolio turnover rate</b>	1592%	157% <sup>(c)</sup>

<sup>(a)</sup> Represents the period from the initial public offering (April 3, 2008) through August 31, 2008.

<sup>(b)</sup> Total return is a measure of the change in value of an investment in the Fund over the periods covered, which assumes any dividends or capital gains distributions are reinvested in shares of the Fund. Returns do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares.

<sup>(c)</sup> Not annualized.

<sup>(d)</sup> Annualized.

<sup>(e)</sup> The ratios of expenses to average net assets do not reflect the Fund's proportionate share of income and expenses of underlying investment companies in which the Fund invests.

<sup>(f)</sup> Recognition of net investment income (loss) by the Fund is affected by the declaration of dividends by the underlying investment companies in which the Fund invests.

## MONTEAGLE INFORMED INVESTOR GROWTH FUND

PROSPECTUSES DATED November 9, 2009  
AS SUPPLEMENTED February 3, 2010

The Principal Investment Strategy, Principal Risks and Performance portions of the Monteagle Informed Investor Growth Fund (the "Fund") prospectus [pages 1, 2 and 3 of the standalone prospectus and pages 6, 7 and 8 of the combined prospectus] have been supplemented to include: additional information on the Sub-adviser's sell strategy and use of exchange traded funds; and performance information for the Fund's first full calendar year.

---

### Principal Investment Strategy

The Fund seeks to achieve its objective by investing in "growth stocks." These are stocks that the Fund's Sub-adviser believes demonstrate accelerating cash flows, profit margins and/or revenues. The Sub-adviser emphasizes companies where management and/or large outside investors (such as banks, insurance companies and mutual funds) are buyers or owners of the stock or where the company itself is repurchasing its own shares on the open market. Each of these types of investment professionals is considered an "Informed Investor."

Corporate management is far closer to the day-to-day activities of the companies they own or manage and are often in a much more informed position than the typical Wall Street "expert" to gauge the long-term effects that certain publicly disclosed information or developments may have on the future price of their company's stock. The Informed Investor follows a long-term strategy that concentrates primarily on positive earnings developments within their own companies.

The catalyst of the strategy is Informed Investor ownership; but, investment decision-making for the Fund is triggered by detailed research analysis of such factors as a candidate company's financial stability and strength, internal valuation and pricing ratios, sector leadership and, most significantly, the sustainability of the earnings growth rate. Similar factors determine when a security is sold. For example, a stock may be sold if there are changes in trading activity by Informed Investors or changes in the company's fundamentals, such as decelerating earnings or material changes in the debt-equity ratio of the company. In this regard, the Sub-adviser uses a strict sell discipline. The discipline has sell signals: sell-stops protect profits and minimize future losses; sell signal when stock's "Loss Limit" price safeguard is violated; and sell signal on any advancing indicators of a company's fundamental breakdown. A consequence of the Sub-adviser's strategy, under certain market conditions, is high turnover.

The Fund invests primarily in common stocks of medium and large capitalization U.S. companies, but may invest in companies of any size. Although the Fund will not concentrate in any one industry, it is anticipated that the Fund's portfolio will focus on a small, select group of industries ("growth industries") which the Fund's Sub-adviser believes offer superior growth opportunities based on overall economic trends. The Fund may also invest a portion of its assets in broad market index exchange traded funds ("ETFs") -- including ETFs that are leveraged or inversely related to the market. The Sub-adviser views ETF's as risky investments because they are more volatile -- particularly those that are leveraged or inversely related to the market; and, to address this risk, the Sub-adviser employs its strict sell discipline.

From time to time, the Fund's Sub-adviser may determine that only a limited number of companies meet the criteria for investment described above. At such times, all or a significant portion of the Fund's assets may be invested in ETFs -- including ETFs that are leveraged or inversely related to the market, money market instruments (including money market mutual funds) or repurchase agreements for an extended period of time. The Sub-adviser's strategy is not to buy and hold -- or, if defensive, to place the portfolio in cash and let it sit idle. Instead, the Sub-adviser sees active trading as necessary to address market disturbances, volatility and the like.

## Principal Risks of Investing in the Fund

You could lose money on your investment in the Fund and the Fund could underperform other investments. The principal risks of investing in the Fund include:

- **Management Risk.** The strategy used by the Fund may fail to produce the intended results.
- **Company Risk.** The Fund might decrease in value in response to the activities and financial prospects of an individual company in the Fund's portfolio. The value of an individual company can be more volatile than the market as a whole.
- **Market Risk.** The Fund might decrease in value in response to general market and economic conditions. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets.
- **Volatility Risk.** Common stocks tend to be more volatile than other investment choices. Because the Fund will emphasize various growth industries, the value of your shares is likely to be more volatile than a fund that invests in a broader range of industries.
- **ETF Risk.** To the extent the Fund invests in ETFs that are leveraged, you are exposed to the risk that any adverse daily performance of an ETF's target index will be leveraged. This means that, if the ETF's target index experiences adverse daily performance, the Fund's investment in the ETF will be reduced by a greater amount for every adverse performance. Further, purchasing shares during a day may result in greater exposure to the performance of the target index if the target index moves in a direction adverse to the ETF between the close of the markets on one trading day and before the close of the markets on the next trading day.
- **Capitalization Risk.** The Fund may invest in small and medium capitalization companies which involve greater risks than those associated with larger, more established companies. Smaller companies may be subject to more abrupt or erratic price movements, for reasons including that the stocks are generally traded in lower volume and that the issuers are more sensitive to changing conditions and have less certain growth prospects.

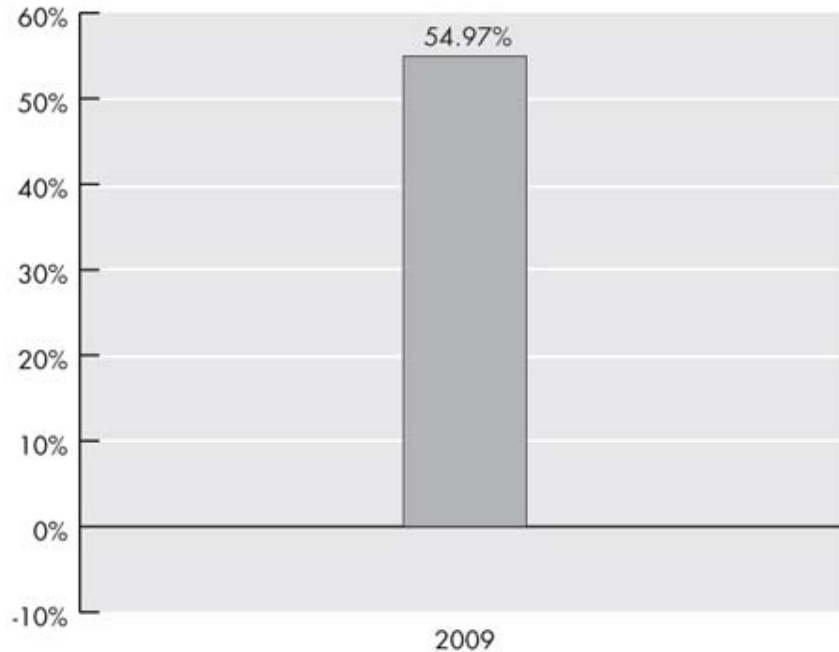

- **Portfolio Turnover Risk.** The Fund's investment strategy may result in a high portfolio turnover rate. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the distribution to shareholders of additional capital gains for tax purposes. These factors may negatively affect the Fund's performance.
- As with any mutual fund investment, the Fund's returns will vary and you could lose money.

An investment in the Fund is not a deposit of any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund is not a complete investment program.

## Performance

The bar chart and performance table that follow provide some indication of the risks and variability of investing in the Fund by showing the changes in the Fund's performance from year to year and by showing how the Fund's average annual total returns compare with those of broad measures of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future.

The following chart shows the total for the Institutional Class (I) shares return of the Fund for each full calendar year that the Fund has operated. The Class I shares are no-load shares available for investors who have accounts of \$100,000 or more. The Class A & C shares offered by this prospectus have no performance history. The Class A shares have a 5.00% sales charge and the numbers in the table do not reflect any sales charge. The ongoing distribution fees attributable to Class A & C shares would reduce the performance numbers by .25% and 1.00% respectively.

The Fund's Class I shares year-to-date total return through December 31, 2009 was 54.97%.

During the period shown in the bar chart, the highest quarterly return was 17.42% (for the quarter ended September 30, 2009) and the lowest return was 5.02% (for the quarter ended March 31, 2009). The impact of taxes is not reflected in the bar chart; if reflected, returns would be less than those shown.

**Average Annual Total Returns  
for the periods ended December 31, 2009**

The table below shows how the Fund's Class I Shares average annual total returns compared to those of the S&P 500 Index®. The table also presents the impact of taxes on the Fund's Class I Shares returns. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state or local income taxes. Your actual after-tax returns depend on your tax situation and may differ from those shown. If you own the Fund in a tax-deferred account, such as an individual retirement account ("IRA") or a 401(k) plan, after-tax returns are not relevant to your investment because such accounts are subject to taxes only upon distribution.

<b>Monteagle Informed Investor Growth Fund <sup>1</sup></b>	<b>1 Year</b>	<b>Since Inception (April 3, 2008)</b>
Return Before Taxes	54.97%	23.80%
Return After Taxes on Distributions	46.87%	20.05%
Return After Taxes on Distributions and Sale of Fund Shares	35.64%	18.24%
<b>S&amp;P 500 Index® <sup>1</sup></b>		
(reflects no deduction for fees, expenses or taxes)	26.46%	-8.91%

<sup>1</sup> The S&P 500 Index® is the Standard & Poor's 500 Index, a widely recognized, unmanaged index of common stock. The index figures assume reinvestment of all dividends paid by stocks included in the index. One cannot invest directly in the index.
